PROFESSIONAL SUMMARY

MCA graduate (August 2026) seeking an entry-level full stack developer role in Bengaluru, with a current internship in software development and process management. Hands-on with Python, MySQL, JavaScript, HTML and CSS through academic projects, including building and troubleshooting web application workflows and keeping data records accurate. Quick to learn new tools and technologies, with clear written and spoken English.

SKILLS

Databases: MySQL, MongoDB
Programming and Web: Python, Java, JavaScript, HTML, CSS, Django, Next.js, React.js
Office Tools: Microsoft Excel, Word, PowerPoint
Other Tools: Amazon Web Services (AWS), Jupyter Notebook, VS Code
Languages: English, Malayalam

INTERNSHIP EXPERIENCE

IN-TA Solution Pvt Limited | Internship (September 2026 - Present)
Area: Software development and process management

Solar System Management Project
Technologies: Python, Django, Next.js, React.js, MySQL

- Working on a web application to manage end-to-end solar power business operations: customer management, quotations, projects, KSEB applications, installation tracking, inventory and stock, vendor management, and billing and payments.
- Work covers service complaints and maintenance, with role-based access control (RBAC) for Admin, Manager, Worker, StoreKeeper and Customer roles.

ACADEMIC PROJECTS

Recruit AI - Intelligent Multi-Modal Recruitment and Interview Platform (AI Project)
Technologies: Python, Flask, JavaScript, HTML, CSS, MySQL

- Developed a recruitment and interview platform that simulates interview experiences for students and freshers.
- Used the Groq API and optimized vector pipelines for data provisioning.
- Developed an automated scoring and feedback mechanism to help candidates identify areas for improvement.

Car Wash Management System (Mini Project)
Technologies: PHP, MySQL, HTML, CSS

- Developed a system to manage car washing services, bookings, and customer information.
- Built workflows for customers to view packages, select washing points, make bookings, and track booking status.
- Implemented an admin module covering users, packages, washing points, bookings, payments, and customer feedback.
